

7

reasons to adopt docSAFE **ONLINE SIGNATURES IN YOUR PRACTICE**

Think about the number of things in your business day that need a signature. It is certainly a whole heap of admin that you can avoid by introducing electronic signatures across all of your operations.

Fewer unnecessary meetings • Less paper to store, photocopy and post
Track missing signatures • Throw away the fax machine! • Enjoy the speed!
Sign anywhere • Online signatures are legally binding • Make doing business easier

Need more persuasion?

1

Seal the deal - sales contracts

By signing online you can move quickly and efficiently, ensuring your transactions are complete. This applies to property increasingly.

Trade agreements

Finalise agreements easily. Agree terms with suppliers and distributors and ensure everything is locked down quickly.

2

3

Customer agreements

Have key signatures in place when you sign up new accounts, set credit limits and upload client data - some of the many functions of signing up a new client.

Sign offs and approval

Customer orders, meeting minutes, authorising changes - there are any number of reasons you might want to get a speedy online signature in order to proceed with a project.

4

5

HR heaven

All of the paperwork involved with recruitment is easily managed with online signatures - from the initial applications to tax forms and pension arrangements, expenses and salary payments.

Keep it legal

docSAFE electronic signatures are legally-binding throughout Europe and other countries (ask for details).

6

7

NDA's

For employees, suppliers and other business parties, make sure all your NDAs are signed, up to date and safely stored.

Ultimately, docSAFE online signatures make your business day more efficient, increase the speed of every transaction, are completely legal and safely store everything should you need to refer to it at
