

GETTING STARTED WITH DOCSAFE

Welcome to Docsafe. Feel free to explore and try things out. Take a look at the online signing options, quickly learn how to message securely, upload files, run reports, create editable forms, set up client folders and grant staff access to them – and much more. You can't make a mistake or break anything we can't fix or revert so don't hold back!

To get you started it's worth spending a few minutes on each of the YouTube videos we've put together to help explain various aspects of the portal. These are all listed below.

LIFE INSIDE THE DOCSAFE APP
